SPECIFICATIONS

The high quality filtering media used in the Cleaning No-Smoke mobile filter permits a collection higher than 99.9% and an almost total elimination of odors. Due to the special filter arrangement, their high absorption capacity, the silencer installed on the outlet, and to the use of the high efficiency backward curved blade impellor, the Cleaning No-Smoke adds almost no additional noise to the surrounding environment! The Cleaning No-Smoke filter unit is made of a painted metal sheet paneled structure with an

upper plate where a suction pipe or the arms UNIVERSAL NO-SMOKE (standard) or the EVOLUTION NO-SMOKE (optional) can be fitted. The polluted air is driven through the suction inlet by the vacuum created inside the casing due to the centrifugal fan. The air flow reaches the vertical positioned pre-chamber where a first mechanical separation of heavier particles takes place. This also ensures an even distribution of the air flow to the filters. The heavier particles are falling in a collection tray while the finer ones cross first

the PRECLEAN pre-filter section. The partially purified air is then crossing the high surface area activated carbon panel CARBOCLEAN set to absorb the gases and odors. Finally the filtered air is released back into the surrounding environment.

WARRANTY & INDEMNITY

Dust Monkey warrants products it manufactures for a period of 90 days to the original purchaser from the date of purchase. Items not manufactured by Dust Monkey are limited to their own manufacturer's warranties. This warranty does not apply to defects due directly or indirectly to misuse, negligence, accidents, abuse, repairs, or alterations or lack of maintenance. This is Dust Monkey's sole written warranty and any and all warranties that may be implied by law, including any merchantability or fitness, for any particular purpose, are hereby limited to the duration of this written warranty. Dust Monkey does not warrant or represent that the merchandise complies with the provisions of any law or acts. In no event shall Dust Monkey liability under this warranty exceed the purchase price paid for the product. Both parties agree to binding arbitration in Las Vegas, Nevada. Dust Monkey shall in no event be liable for death, injuries to persons or property or for incidental, and contingent, special, or consequential damages arising from the use of our products. Dust Monkey warrants products only for the specific use expressly agreed to at time of purchase by Dust Monkey in writing. Motors should only be started and stopped up to 4 - 10 times per hour. Starting motors more frequently can cause heat build up and can cause the motor overload to trip or cause motor damage. In general, motors should be started and stopped as little as possible for maximum lifespan and best economy (electrical use). *Note: Motors should be protected from extreme weather to prolong motor life. All claims, including claims covered under the limited warranty, are subject to inspection and investigation before Buyer's claim is settled. Any parts returned for warranty or repair will not be accepted without an RMA number and must be shipped pre-paid. Contact Customer Service with the original bill of sale to obtain an RMA number.
