## SPECIFICATIONS

The Grindex suction filter has been built for use in all dry grinding, tool sharpening processes, etc., and where the possibility exists to convey incandescent particles with the air that might damage the filters. The special high-permeability polyester needle felt with which the filtering pockets are made, ensures longer life and better filtration effectiveness (up to 99%), along with low load losses in comparison with the traditional fabrics (such as cotton). The GRINDEX/3 model has a filtering efficiency of up to

99.99% for special applications. Thanks to the extensive filtering surface achieved through the filtering pockets and the unit's compact size, the Grindex is easy to locate near the machines or in laboratories. The Grindex filtering unit has also been designed to take into account the problem posed by acoustic pollution, and it offers a very low operational noise level of 70 dBA. a sound-proofing plenum is also available for special applications. When it comes to cleaning, the Grindex comes complete with a

manual mechanical filter shaking device to maintain high efficiency levels of the actual filters. The unit has been especially built so that the filtering section can easily be removed from the top part of the Grindex with no need to use tools or service wrenches.

### WARRANTY & INDEMNITY

Dust Monkey warrants products it manufactures for a period of 90 days to the original purchaser from the date of purchase. Items not manufactured by Dust Monkey are limited to their own manufacturer's warranties. This warranty does not apply to defects due directly or indirectly to misuse, negligence, accidents, abuse, repairs, or alterations or lack of maintenance. This is Dust Monkey's sole written warranty and any and all warranties that may be implied by law, including any merchantability or fitness, for any particular purpose, are hereby limited to the duration of this written warranty. Dust Monkey does not warrant or represent that the merchandise complies with the provisions of any law or acts. In no event shall Dust Monkey liability under this warranty exceed the purchase price paid for the product. Both parties agree to binding arbitration in Las Vegas, Nevada. Dust Monkey shall in no event be liable for death, injuries to persons or property or for incidental, and contingent, special, or consequential damages arising from the use of our products. Dust Monkey warrants products only for the specific use expressly agreed to at time of purchase by Dust Monkey in writing. Motors should only be started and stopped up to 4 - 10 times per hour. Starting motors more frequently can cause heat build up and can cause the motor overload to trip or cause motor damage. In general, motors should be started and stopped as little as possible for maximum lifespan and best economy (electrical use). \*Note: Motors should be protected from extreme weather to prolong motor life. All claims, including claims covered under the limited warranty, are subject to inspection and investigation before Buyer's claim is settled. Any parts returned for warranty or repair will not be accepted without an RMA number and must be shipped pre-paid. Contact Customer Service with the original bill of sale to obtain an RMA number.
