

DUST MONKEY JETCLEAN

WWW.DUSTMONKEY.NET

SPECIFICATIONS

Filter cleaning has always been problem for the traditional filtering pockets used for welding & dusts! Dust Monkey now has a simple and reliable solution to this problem: Jetclean, the portable unit with long-lasting washable cartridges and a manual compressed air cleaning system. Due to the units ability to re-use washed filters, the Jetclean portable filter unit offers much lower maintenance costs then traditional filters. The overall design of the Jetclean is compact, while still offering excellent filtering performance.

The unit was engineered to be easy to handle (the unit is fixed on wheels) and also produce very low noise levels. The fumes are extracted by the patented UNIVERSAL NO-SMOKE (standard) arm or EVOLUTION NOSMOKE (optional), they go through a metal filter, situated in the side pre-chamber that operates as a spark extinguisher, then are blown upwards to the cartridge filtering section and exit from the ventilator which is fixed on top of the unit. Jetclean's main application is to deal welding fumes and dry dusts in small quantities.

The standard filtering material is polyester, but other media for different types of applications are available upon request. Also available are pressure gauges, various arm diameters, and cartridges with anti-static coating.

FEATURES

- * Jetclean's main application is dealing with welding fumes and dry dusts in small quantities.
- * Compact size and maneuverability makes this mobile filter useful in nearly any environment.
- * Easy filter replacement makes maintaining the Cleaning No-Smoke simple!
- * Filters air to remove pollutants and odors!
- * Due to the unique design, this filter adds almost no additional noise pollution in the surrounding environment!

OPTIONS

- * Differential pressure gauge to detect filtering clogging
- * Extraction arms of different diameters
- * Cartridges with anti-static coating

PRIVACY STATEMENT

Komodo Enterprises Inc. respects your privacy and will not divulge your contact information to any third party organization or entity without your express permission. In addition, our web sites gather no unauthorized information from your computer during your visit with us. All phone calls to Dust Monkey may be monitored or recorded.

ACCURACY

Dust Monkey assumes no responsibility for errors or omissions in this web site or documents which are referenced by or linked to this site. This site could include technical or other inaccuracies. Changes are periodically added to the information, and Dust Monkey may change the products or services described at any time. Contact Customer Service for further information before relying on any information contained herein. The information provided on this site, including text, images, and links, are provided "AS IS" by Dust Monkey solely as a convenience to its visitors. This information is without any warranties, express or implied, including but not limited to warranties of merchantability, fitness for a particular purpose or non-infringement.

WARRANTY & INDEMNITY

Dust Monkey warrants products it manufactures for a period of 90 days to the original purchaser from the date of purchase. Items not manufactured by Dust Monkey are limited to their own manufacturer's warranties. This warranty does not apply to defects due directly or indirectly to misuse, negligence, accidents, abuse, repairs, or alterations or lack of maintenance. This is Dust Monkey's sole written warranty and any and all warranties that may be implied by law, including any merchantability or fitness, for any particular purpose, are hereby limited to the duration of this written warranty. Dust Monkey does not warrant or represent that the merchandise complies with the provisions of any law or acts. In no event shall Dust Monkey liability under this warranty exceed the purchase price paid for the product. Both parties agree to binding arbitration in Las Vegas, Nevada. Dust Monkey shall in no event be liable for death, injuries to persons or property or for incidental, and contingent, special, or consequential damages arising from the use of our products. Dust Monkey warrants products only for the specific use expressly agreed to at time of purchase by Dust Monkey in writing. Motors should only be started and stopped up to 4 - 10 times per hour. Starting motors more frequently can cause heat build up and can cause the motor overload to trip or cause motor damage. In general, motors should be started and stopped as little as possible for maximum lifespan and best economy (electrical use). *Note: Motors should be protected from extreme weather to prolong motor life. All claims, including claims covered under the limited warranty, are subject to inspection and investigation before Buyer's claim is settled. Any parts returned for warranty or repair will not be accepted without an RMA number and must be shipped pre-paid. Contact Customer Service with the original bill of sale to obtain an RMA number.
